Universal Tailgate:

Fits most estate cars without sill and is installed in the vehicle without causing damage to it. Is installed by tightening straps to anchor points.
Shall be used along with a safetynet above the backseats to prevent animals and cargo to be thrown forward at a collision or brake.

Allows maximum utilization of the luggage boot.
Adjustable in height, width, depth and tilt of the doors.
Compartments for keeping leads and toys inside the doors.
Crash tested at SP in Sweden.
A divider is available as accessories for those who want to divide the luggage boot.

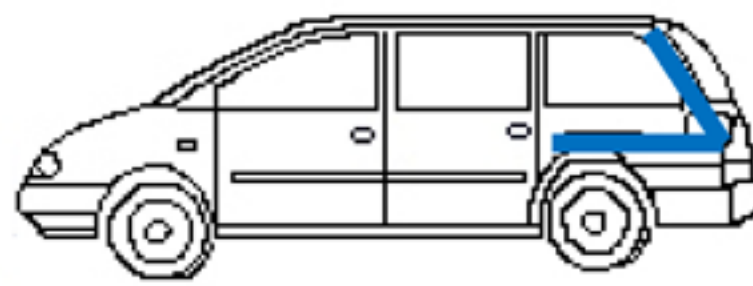

The product is developed by MIM Construction AB and is manufactured in our own factory.

Retailer:

Mim Construction AB is a high technology ISO certified company that delivers safety accessories to many of the world's leading car manufacturer. The company also manufactures interior and safety details for special vehicles and safety crates for dogs.

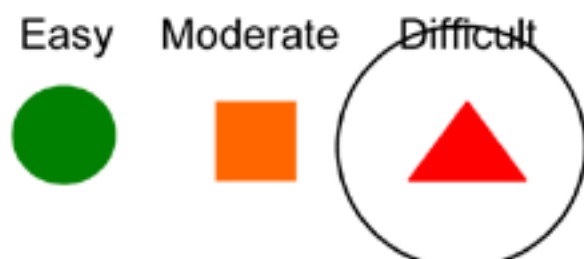

Manufactured in Sweden by MIM Construction AB www.mim.se fk/2008-02-10
